## New Barn Guidelines

### Another Trainer: \_\_\_\_\_ initials

Heaton Creek Farm & Stables has another trainer that works out of the barn. Her name is Kaitlyn and she operates Charlton Ridge Farms. She is very kind and I anticipate that we will be able to work together very cooperatively in the shared space. The barn has multiple riding areas so it shouldn't be a problem. In the winter, we will likely be sharing the indoor arena a lot, but it is larger than our current arena and we will have ample space to keep everyone safe.

### Face Masks: \_\_\_\_\_ initials

Please plan to have a facemask with you in case someone would like you to put it on. It is our goal that everyone feels accepted and safe in the environment and this topic has been very divisive for our country, but we do not want that to be the case for our clients. Our barn is our happy place and we want to keep it that way for all who come and enjoy the space and our horses. I don't anticipate there to be much difference from what we have been doing all along, but we want to make sure that all the folks that currently work out of Heaton Creek/Charlton Ridge feel respected as well. If you have any specific questions, please don't hesitate to ask.

### Barn Etiquette: \_\_\_\_\_ initials

Heaton Creek Farm & Stables is a larger facility than we've been in so there will be more activity when you arrive. Please be respectful of people and their space as they are working with their horses.

- If you'd like to observe other riders/lessons, please ask before doing so.
- **NO TREATS!** Horses have very sensitive digestive systems and they are not able to burp or throw up if they don't feel well in their tummy. If a horse gets a tummy ache, it can become life-threatening pretty quickly. Please don't feed horses any treats without specific permission from their owners.
- This is not a facility where you can wander around aimlessly. Our horses will be in the small barns and you can feel free to visit any of them as usual. We will show you where you can be and where to avoid unless you are with a representative from Liberty Reins.
- **Please do not pet horses that are not part of the Liberty Reins herd.** This barn has 43 stalls and the spread of germs is something that we need to do our part to prevent.
